# ASCAPE Open Call

During the last year of the project, the ASCAPE consortium partners will launch an open call to invite external partners to join ASCAPE.

Through this call we are looking at..

- evaluating the efficacy and applicability of our solution and test our AI models achieving a broader participation and involvement to the ASCAPE development.
- enhancing ASCAPE's efficacy and expand its application to other types of cancers or medical conditions.

# ASCAPE Open Call

## ASCAPE open call offerings

- Lump sum of 250.000 € (3 to 5 projects to be funded)
- Access to AI models/ASCAPE solution
- Access to extra synthetic data
- A description of the overall architecture to healthcare providers, AI/ ML SMEs or research centers
- Technical & business coaching
- Publicity/visibility

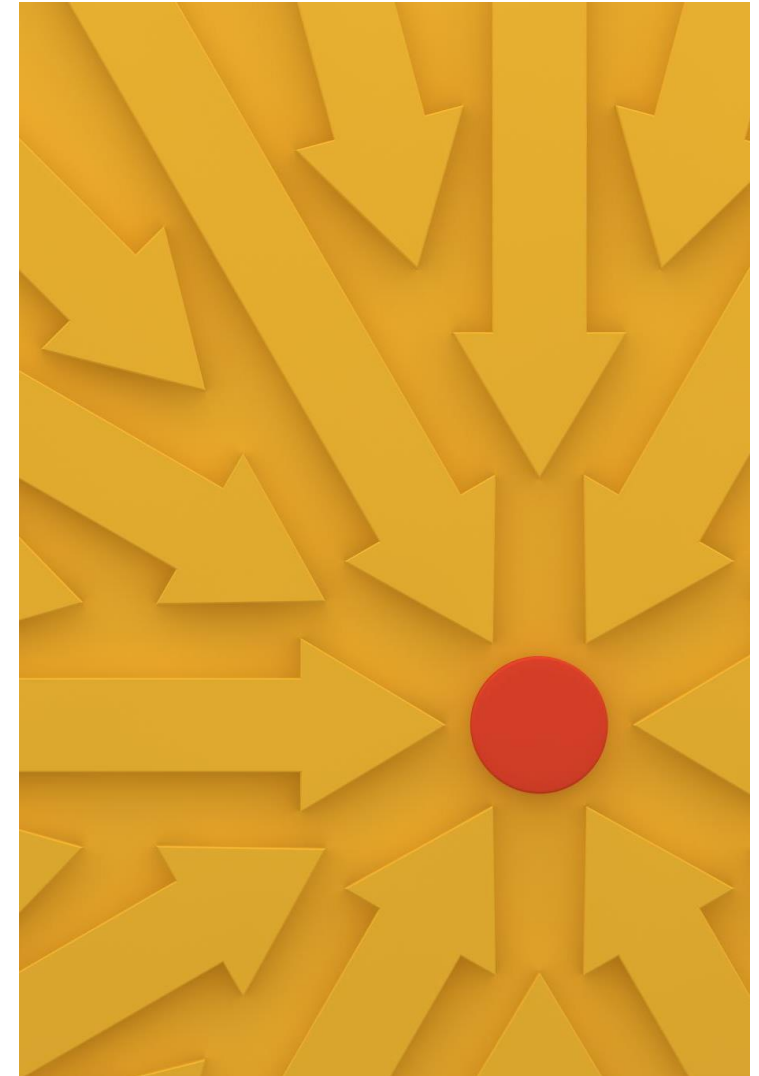

**ASCAPE Open Call will be launched at next September!**

# Open Call objectives

## Objectives

- Evaluate the developed AI models and the whole ASCAPE solution in, external to the consortium, **Healthcare Providers, SMEs in the field of Health & doctors in private practice.**
- Seek for external **AI / ML SMEs** or **research teams** with expertise on cancer related medical applications to provide the consortium with **new algorithms AI/ML models** to be incorporated in our solution enhancing its efficacy & expanding its application to other types of cancers or medical conditions.

# 1<sup>st</sup> Sub-Call

## Evaluation of ASCAPE Open AI infrastructure in healthcare institutions

### Who are we looking for?

Hospitals, healthcare Institutes, SMEs in the field of Health & patient Quality of life, doctors in private practice tackling different kinds of cancers. Consortia are not excluded!

### What do we expect in the proposal phase?

- Elaborate on your research field of action
- Provide a high-level use case scenarios
- Description of Quality-of-Life indicators that you follow
- Demonstrate how you will improve services to support cancer patients & the quality of life of them and their families

# 1<sup>st</sup> Sub-Call

## Evaluation of ASCAPE Open AI infrastructure in healthcare institutions

### What do we expect in the project phase?

- Clinical evaluation feedback and user experience feedback
- Report recommendations for improvements that the ASCAPE framework may include in future releases

### What do we provide?

- Operational version of ASCAPE solution
- Synthetic data (due to ethical reasons...)
- **But... extra points/funding will be given if any applicant bring his/her own datasets**

## 2<sup>nd</sup> Sub-Call

**Contribute new algorithms to improve or/and train ASCAPE Open AI infrastructure to detect new types of cancer or medical conditions**

**Who are we looking for?**

AI / ML SMEs, research organizations with expertise on cancer related medical applications. Consortia are not excluded!

**What do we expect in the proposal phase?**

- Description of technical solution – (medium-high maturity)
- Provide a high-level use case scenarios
- Put down your team competency

## 2<sup>nd</sup> Sub-Call

**Contribute new algorithms to improve or/and train ASCAPE Open AI infrastructure to detect new types of cancer or medical conditions**

**What do we expect in the proposal phase?**

- Demonstrate how you will improve services to support cancer patients & the quality of life of them and their families

**What do we expect in the project phase?**

- Integration of the solution in the ASCAPE framework
- Finalization of the implementation based on feedback received

## 2<sup>nd</sup> Sub-Call

Contribute new algorithms to improve or/and train ASCAPE Open AI infrastructure to detect new types of cancer or medical conditions

### What do we offer?

- Access to ASCAPE framework
- Synthetic data samples
- Technical guidance, collaboration
- Communication services

# Open call logistics

## Who can submit their proposals?

- You could apply if you are legally recognized (have 'legal entity) & you qualify for H2020 funding.
- Member States (MS) of the European Union (EU) or H2020 associated countries
- Consortia are not excluded from the process

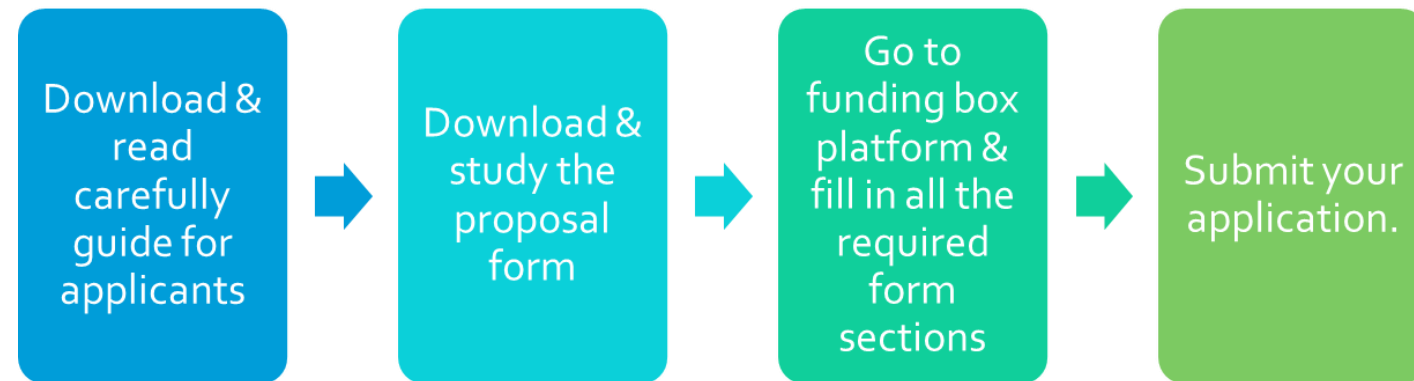

## How much money is there?

- 250.000 for 3 to 5 third party beneficiaries with a 100% funding rate.
- Can be spent on: Personnel, consumables, support services, overheads.

# Open call logistics

Now that I have decided to apply, where could I submit my project?

- Applicants must submit proposals for the ASCAPE Open Call in a single stage through the Funding Box platform ([fundingbox.com](https://fundingbox.com))

# Open call logistics

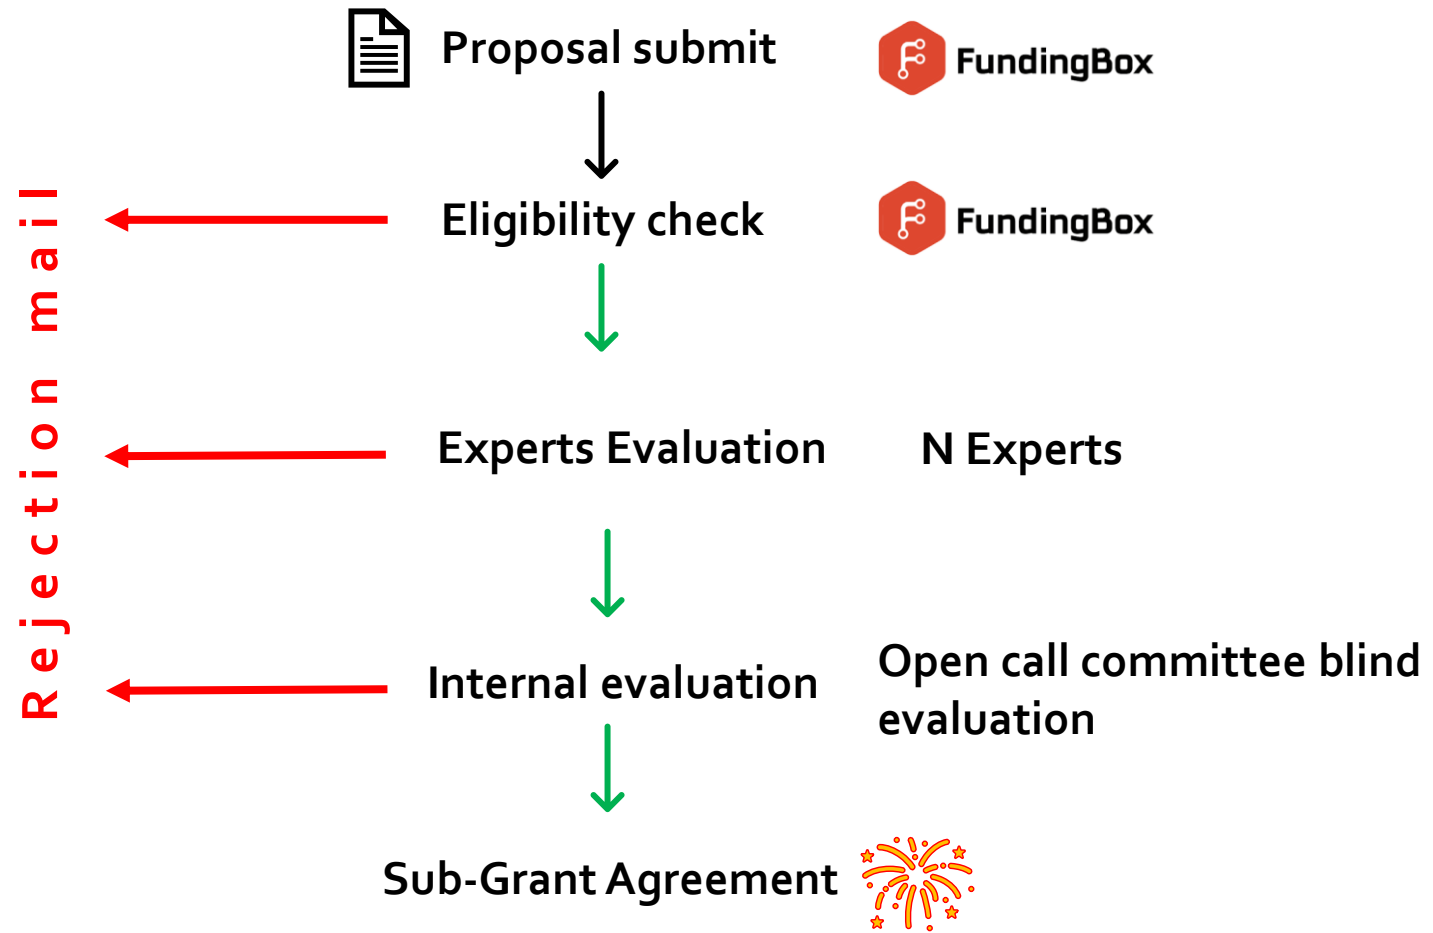

## Who are going to evaluate my proposal?

- External to the consortium evaluators will be selected from a pool of renowned experts on the scope of the project.
- Based on this list of experts built by Funding Box, Open Call committee will appoint the evaluators.
- In order to secure the integrity of the process evaluation will be blind

## What is going to be evaluated?

- Excellence, Impact, Implementation
- Extra points/funding will be given in case any applicant brings his/her own datasets
